Work Around: To this date, no organization or application has ever sent permit data - of any kind - to SAFER. We do not know if the original software and EDI design is correct or at all useful. At this point in time SAFER is not aware of any intention of any organization or application to send either carrier or vehicle permit data to SAFER. Unless a specific source of carrier or vehicle permit data can be identified, SAFER requests that the requirement for carrier and vehicle permit data processing be deleted.

Description: At the Sept. 19, 2002 ACCB meeting, Tania Rossouw of Wisconsin requested that an XML permit transaction be included in a future version of SAFER.

[2002-10-18 ncm] Presented and discussed at ACCB meeting 10/17/02. States agreed that the capability for SAFER to handle permit data is needed. This feature will not be included in SAFER 4.2, but will be added to the list for future SAFER updates.
