External Reference: SAFER CR 797

Category:

Component: SAFER

Synopsis: Modification to data requirement for SAFETY_CARRIER

Status: Open

Disposition: [2006-05-26] Open for discussion and comment

Description: SAFER CR 797:

PRISM stakeholder requested to re-visit the data requirement for safety_carrier. After SAFER version 4.9, safety_carrier becomes a conditional mandatory field in T0022 transaction. That requires CVISN/PRISM states to populate safety_carrier data field for all vehicle uploaded to SAFER. This is not required for CVISN-only states. The proposed modification is when the IRP_Weight_Carried is under 6,000 lbs or to be determined, the carrier responsible for safety of the vehicle doesn't required to have DOT number. Therefore, the safety_carrier field does not need to be filled.

[2006-05-26] Presented and discussed at the 5/18/06 ACCB meeting.

NE stated that there are two weight related issues with IRP_WEIGHT_CARRIED. The weight limit is 10,000 lbs. by FMCSA Rules. If the weight is under 10,000 lbs, a Carrier ID (Safety Carrier) is not required. This CR is asking to relax the constraint for CVISN/PRISM states regarding the mandatory data requirement to populate the Safety Carrier field. The Carrier ID is not required if under 10,000 lbs. CR 3094 concerns a check constraint on the IRP_WEIGHT_CARRIED field itself.

Volpe will post the CR to the listserv for comment.
