

CR Number: 5087
External Reference: ARCH CR 4991
Category: Business Rules
Component: SAFER/CVIEW
Synopsis: Interim Business Rules to Support Data Quality Regarding USDOT Number
Status: Open
Disposition: [2007-08-24] Vote at 2007-08-23 ACCB meeting.
Description: [2007-03-21] At the CVISN Deployment Workshop, it was agreed that there should be basic requirements for states uploading data to SAFER as well as for SAFER sending data to states.

State Upload Rules:

- The state should capture the IRP licensee's USDOT number during vehicle registration and provide it at the carrier account level (IRP_CARRIER_ID_NUMBER field) in the T0020 IRP Account Input transaction.
- The state should capture the safety (carrier responsible for safety) USDOT number during vehicle registration and provide it in the SAFETY_CARRIER field of the T0022 IRP Registration (Cab Card) Input transaction.
- States that do not capture the safety USDOT number during vehicle registration should provide the IRP licensee's USDOT number (IRP_CARRIER_ID_NUMBER field from the T0020 transaction) if available in the SAFETY_CARRIER field of the T0022 transaction.

Impact Summary:

SAFER Interface Control Document (ICD)
SAFER
State CVIEW or CVIEW-equivalent systems

[2007-08-24] Discussed at ACCB meeting 2007-08-23. Update to change "registrant USDOT number" to "IRP licensee's USDOT number". Vote at ACCB meeting on 20 September 2007.
